

OCF 2020 Annual General Meeting

We are pleased to introduce the two candidates up for election to the Board:

Jamie Galloway

I have been an active member of the climbing community since 2013. I have 3 children who compete Nationally and Internationally at a variety of OCF and USA Climbing competitions. I have been a volunteer judge and belayer for the OCF and National events. I am a Registered Dietitian/Diabetes Educator working in a hospital setting. I have sat on a number of multidisciplinary committees related to the development of medical directives and recently the development of Provincial Guidelines for the treatment of Type 1 Diabetes. I have a background in Cross Country Ski racing and have my NCCP level 1 coaching certificate and previous coaching experience. I was actively involved in competitive Ultimate Frisbee for over 10 years and helped organize summer leagues as well as coaching in the youth program. I feel that I have a good knowledge of the challenges with the past OCF events and can foresee many new challenges in the coming years related to COVID 19. I have an interest in helping develop our Ontario athletes and structure of our competitive series to enable top performance as well as growth and retention of the sport.

Davis Barton

Davis has served on the OCF Board for the past two years, helping to launch initiatives such as written rules, training camps and long-term strategic planning. She was OCF Registrar in 2018-19 and OCF Chair for the 2019-2020 season. She has also volunteered as Technical Delegate at many OCF competitions over the past two years. An MBA graduate, Davis brings experience in operations, strategy and management from over 15 years in industry. She also brings Board experience in the non-profit sector, including on the Board of her local gymnastics club, where she was Treasurer and Secretary and involved with organizing competitions, events, volunteers and fundraising. Davis is relatively new to climbing, however this brings new perspectives to OCF discussions. As the mom of a Youth climber, she also brings a parent perspective to the Board.
